**Subject:** Re: Outstanding Isotech Data?

Cindy/Robin,  
I moved two files to the J:/Dimock/Isotech/17692 folder. They were "Job17692.xls" and "JOB17692.pdf". Not sure if these were uploaded to the FTP site. There is a cover letter, from me signed by Dan dated 4/5/12.  
Cindy-this may be the situation we discussed this morning of the file being there but they can't see it.

**Subject:** Outstanding Isotech Data?

Sorry ..... but I can't recall if we already talked about this. Although I received the attached e-mail of the excel file and pdf with the Isotech data for the location sampled in March, the data has not yet been posted to the FTP site. Would you please post this information as soon as possible so that it can be entered into the Scribe database.

Thanks - Kelley

Hi Gene-

We have completed work on the sample from project #R33917 and attached is an excel file and pdf with the data. I will send the full QA/QC package sometime next week. If you have any questions, please let me know.

We will hold the sample until 05/03/2012 in case you would want any additional analyses carried out, and will then dispose of the remaining sample material. If you need us to hold the sample longer, please contact us.

In order to reduce our carbon footprint, we will no longer be sending hard copy analysis reports in the mail unless specifically requested. Please let me know if you would like hard copy analysis reports for this project and all future projects.

Thank you,

## **Ex. 4 - CBI**
